

# CourseFlow — Quick Guide

Interactive course planning tool for ECS programs. Use it to label courses, strike completed ones, add notes, validate prereqs/offering rules, and export advising notes.

Action	How to Do It
Pick Program	Top-left dropdown
Focus on a Course	Left-click node (shows prereqs/coreqs in/out)
Plan Term	Ctrl + Left-click to cycle (Fall, Spr, In Prog., Com. College, Sum, Win → none)
Strike/Un-strike	Right-click node
Add Note	Alt + Left-click → type → Save (note in red)
Validate Plan	Top toolbar → Check (prereqs, conflicts, offerings)
Export Advising Notes	Top toolbar → Gen Notes (downloads .docx)
Save State	Top toolbar → Save (Excel file)
Load State	Top toolbar → Load (Excel file)
Import TDA	Top toolbar → Import (auto-strikes satisfied courses; use HTML of TDA) <sup>1</sup>
Print Handout	Browser File → Print (layout optimized for landscape)

**YouTube Video:** <https://youtu.be/bfX1tipUXbs>

---

<sup>1</sup> **Import is best-effort; if anything looks off, click Check and review GE notes.  
Known limitations: institution-specific HTML; may break if CSUF updates TDA format.**
